

Healing Touch Integrative Care Program

Integrating Healing Touch in the Clinical Setting 

A comprehensive manual providing the process and tools necessary to fully incorporate Healing Touch within the clinical care setting.

This manual was created through a cooperative effort between Healing Touch Program and Lourdes Lorenz, Director of Integrative Healthcare, Mission Hospital, Asheville, NC.

This manual provides the structure for implementing Healing Touch and includes useful tools to assist with each step in the process:

- PowerPoint presentations for administrators, physician and nursing leaders and the community
- Letters, scripts, policies and procedures
- Documentation forms, spreadsheets, and checklists
- Surveys for assessing, implementing, and evaluating
- Sample business plan and strategic plan
- Resource and research listings
- And more

The manual includes an Appendix where each of the above can be studied or copied. A USB flash drive contains a digital format of the tools that allow you to customize them to meet the unique needs of your organization.

This Manual includes:

- 350 page color manual
- USB flash drive (containing .docx, .pptx, .xlsx files)
- Booklet - Healing Touch Scope and Standards of Practice
- Brochures: Practitioner Brochure, Healing Touch Program Brochure, Introduction Booklet - *What is Healing Touch?*
